

Preview your Advisor

The subview **preview** gives you the opportunity to see your current working status of your advisor client without needing to deploy it (see [publish view](#)).

Structure

Next to the rendered client, you have the ability to switch some settings. These are:

- **Screen Width:**
You can scale the advisor depending on your display size of your desktop or mobile device; or select **Mobile** to see the mobile view or **Desktop** to get the desktop version of the client.
Thanks to this ComboBox you can easily switch between all variants your customers can possibly see while using your advisor.
- **Language:**
All languages which were added in the [internationalization view](#) can be selected. Thus, it is easy to see if all language texts are complete or look good in the advisor.
- **Theme:**
You can select all excentos provided themes to see which themes look best for your needs.

Example

The screenshot displays the Advisor preview interface. At the top, there are three dropdown menus for configuration: 'Screen Width' set to 'Dynamic', 'Language' set to 'English (US)', and 'Theme' set to 'default'. Below these is a header area with a 'Restart' button on the left, the title 'Person' in the center, and a 'Results' button with a right-pointing arrow on the right. A progress indicator with five dots is positioned below the title. The main content area is divided into two sections. On the left, there is a form with two questions: 'Please tell me your gender:' with radio buttons for 'Male' and 'Female' (selected), and 'What is your age?' with radio buttons for 'Adult' (selected) and 'Child'. Each radio button has an information icon. On the right, there is a large image of a woman in a dark coat and blue scarf riding a bicycle with a child in a blue helmet and winter gear seated in a front-mounted child seat. A green right-pointing arrow is overlaid on the image. Below the image, the text reads 'Female' and 'Everything for mothers and daughters.'
